Summary

A Computer Science Engineering student with experience in building full-stack applications and backend systems, Cloud-focused engineering student with experience in AWS cost optimization, data pipelines, and automation using Python and SQL. Strong interest in building scalable backend systems and data-driven applications.

Education

B.Tech in Computer Science Engineering	CGPA: 8.72
Chitkara University, Rajpura, Punjab	2023 – Present
12th Grade (PCM)	CGPA: 7.88
Mukand Lal Public School, Yamunanagar, Haryana	2023

Technical Skills

Programming Languages: Java, JavaScript, Python(Basics), SQL

Backend & Full Stack: Spring Boot, Node.js, Express.js, React

Core CS: DSA, OOPS, DBMS, OS, Computer Networks

Databases: MySQL, MongoDB

Tools: AWS, Git, GitHub, Linux, Postman, VS Code

Technical Projects

CU Campus – *University Portal*

Spring Boot, React, MySQL

- Developed scalable REST APIs using Java Spring Boot for complaint and gatepass management modules, ensuring modular and maintainable backend architecture
- Implemented JWT-based authentication and role-based access control (Student/Warden) to secure endpoints and prevent unauthorized access
- Designed and optimized MySQL schema with efficient joins and indexed queries to improve data retrieval performance
- Improved API reliability by implementing robust input validation, exception handling, and debugging production-level failures

Career Compass – *Career Guidance Platform*

React, Node.js, Express.js, MySQL

- Implemented personalized career recommendation system.
- Built backend endpoints to generate career recommendations
- Added roadmap and resource modules to guide students on skills, exams, and learning paths.
- Validated API requests and handled edge cases

Achievements & Certifications

IEEE Toastmasters Club; enhanced public speaking, leadership, and technical communication by participating in group discussions.

Participated in the **Adobe India Hackathon**, collaborating on innovative software solutions.

Competed in university-level **badminton tournaments**, demonstrating teamwork and discipline.

Completed certifications in **Introduction to Agile Development (Coursera)** and **Full Stack MERN (ThingQbator)**.
