SUMMARY

Final-year Computer Science student with a strong foundation in problem solving and full-stack development. Skilled in bridging the gap between technical complexity and business needs through data analytics using Python (Pandas, Matplotlib), SQL, and Advanced Excel. Experienced in building scalable, user-friendly applications with the MERN stack, with a passion for transforming raw data into actionable insights. Quick learner and driven team player committed to solving real-world challenges through logical thinking and clean, efficient code.

EDUCATION

Chitkara University, Punjab, India Bachelor of Engineering in Computer Science	Aug 2022 – Jun 2026 (CGPA: 8.17)
St. Mary's School, Sundernagar, Himachal Pradesh Higher Secondary (12th), CBSE (Non-Medical)	Aug 2021 – Jun 2022 (80%)

TECHNICAL SKILLS

Analytical Tools	Excel (Pivot Tables, VLOOKUP), SQL (Joins, CTEs), Python (Pandas, Matplotlib)
Programming	Python, Java, C++, JavaScript (ES6+)
Web Development	MongoDB, Express.js, React.js, Node.js, HTML5, CSS3
Tools & Platforms	Git, GitHub, Postman, MS Office
Concepts	Requirement Gathering, User Stories, SDLC (Agile/Scrum)

VOLUNTEER EXPERIENCE

Organizing Executive, ACM Chitkara University	Oct 2022 - Present
– Spearheaded the organization of coding competitions, hackathons, and tech-based activities, ensuring smooth execution and strong participant engagement.	
– Coordinated with team members and volunteers, assigned responsibilities, and maintained clear communication for efficient event delivery.	

PROJECTS

Web Security Vulnerability Analysis — Python, Burp Suite	 Code
Conducted an end-to-end security assessment on a local platform to identify authentication and session management vulnerabilities. Developed Python scripts and used Burp Suite to simulate brute-force attacks and analyze HTTP request/response patterns, identifying potential security bypasses and documenting their impact.	
CataLog: AI E-Commerce Generator — MERN, OCR, NLP	 Code
Developed an AI-powered MERN stack application to automate product listing creation from posters. Integrated OCR and NLP to extract product details and built a smart auto-fill system that reduced manual effort by 80%. Designed a responsive dashboard for verification and editing of generated content.	

CERTIFICATIONS

- Google Data Analytics Certification — Coursera (May 2025)
- IBM AI Enterprise Workflow Specialization — IBM (Aug 2025)
- Generative AI: Introduction and Applications — Google (Dec 2024)
- Cloud Computing: Introduction to Cloud Computing — Coursera (Jul 2024)
